## Supplement and Price-List to Our General Catalogue

 This List cancels all previous quotations

Four times transplanted

Three times transplanted

Twice transplanted

Photo-engraving of three Hemlock Spruce, each 3 feet high, with ball of earth shaken out to show results of frequent transplanting. Note the increased mass of fibrous roots, also increase in fatness of the tops.

All our stock both deciduous and evergreen trees and shrubs, is frequently transplanted. Our Maples, Lindens, Poplars, Dogwoods, etc., show the same masses of fibrous roots as Hemlocks above. In digging, great care is used to preserve the roots intact. We do not use a tree-digging machine. Moreover, our stock is not dug in autumn and stored in cellars, but dug fresh from the ground at time of packing the order. Evergreens are balled and burlapped without extra charge, and no charge is made for boxing and packing. Our price is low when you consider the quality and the liberal discounts we offer. Of 600 evergreens sent by freight to Pennsylvania, Spring, 1900 (Arborvitæ, 2 to 3 feet high, not balled or burlapped), our customer writes: "Practically all the Arborvitæ purchased from you grew. We lost about 600 out of 650 purchased from elsewhere."

This man not only lost trees and labor but also a year's time, of more value than the trees. Where do you suppose he will buy next time?

If interested, ask for our Gladioli and Dahlia List; also Special Offer of Seedlings. 64-Page Catalogue Free

TARRYTOWN, N. Y.

# Irish Roses

Several years' thorough trial of these Roses has convinced us of their superiority. The fact that we supply many of the best rosarians in the country, who express themselves as highly pleased, is ample proof of the quality of Irish stock.

Among the first to recognize the value of the Hybrid Tea Roses during the latter part of the previous decade, we tried first American-grown plants, then successively those from Holland, England, France and Germany. But the climate of one country, soil in another, and the careless methods of growing and shipping in others, have driven us to rely on the firm whose long years of experience have enabled them, in a most favorable climate, to produce the high-grade stock we desire.

The Dicksons grow this fancy stock to our order, and we offer only such varieties as have proven a success in this country. There are other varieties which promised much, and many more which are successful in mild climates, but the number of first-class, hardy sorts is limited to a comparative few. Some of these do well in one section and some in another.

Of the nearly 200 varieties we offer, all are heavy two-year dormant plants and a few Rugosas and Climbers are both two and three years old.

Planted early the roots become well established in the cool weather of April and May so that they are able to produce a fine lot of blooms in June, and the Everblooming Teas and Hybrid Teas continue to bloom through summer and fall until heavy frosts. Place your order now, we will not ship until conditions are suitable for planting in your section.

## TWO REASONS FOR PLACING YOUR ORDER EARLY:

(1) To make sure of getting the desired varieties before the stock is exhausted, many of our old customers placed their spring orders six to eight months in advance.

(2) Early orders take precedence in time of shipment, provided, of course, ground in your locality is ready for planting; plant just as soon as ground will work well.

For full list with descriptions and for cultural directions see our 64-page illustrated catalogue, which devotes twelve pages to this Queen of Flowers.

### Prices of Roses, Spring of 1910

All Roses offered in our General Catalogue, including Climbers, Rugosas, Sweetbriars, Hybrid Perpetuals, Hybrid Teas, etc., not named on order blank, will be furnished at 35 cts. each, \$3.50 per doz., \$25 per 100.

On all Roses prices are: 6 at dozen rates, 50 at 100 rates, provided not less than three of a kind are ordered. No charges for boxes or packing.

### Please Bear in Mind

These prices are not for home-grown or Holland stock. **Irish Roses** are as much superior to ordinary stock as **superior soil and climate and 50 years' training in Rose-growing can produce**. To produce such stock, strong one-year plants are set in spring and grown two years in the field; quite different from plants started in the greenhouse in winter, planted out in spring and sold the following spring for two-year-old plants. The fact that we send these **Irish Roses** to nearly all the large estates at **Lenox and Newport**, where the gardeners are known to be as well up in their profession as any in the country, is proof positive of the quality of our stock.

A garden planted in the spring of 1908, in the Adirondacks by us, including a rose-garden of 450 plants, brought the following letter:

Will you kindly tell me the name of the enclosed flowers. Mrs. Oliver is spending a few days with us and has gone crazy over our old-fashioned flower garden. Everything in it is doing fine and the roses are simply grand.—D. A. WELLS, Johnstown, N. Y., July 15, 1908.

Another writes, under date of October 27, 1909: "Your Roses have been very highly recommended to me by some of my friends at Scarborough, and I am anxious to try some of them myself in April, 1910."

There were reasons for their very high recommendation.

(1) **The plants were grown by Rose-growers of over fifty years' experience, in the north of Ireland**, where soil and climate conspire to produce plants of great vigor, strong roots and well-ripened wood.

(2) **The plants were very low-budded**, so that in planting the bud or graft is easily placed 2 or 3 inches below the surface of the ground (as it should be) without the necessity of too deep planting of the roots.

(3) **The plants are kept perfectly dormant** from the time they are dug until they reach our customers. On arrival, late in November, we place them in deep trenches and cover with earth until shipping time. By this method there is no drying out of the roots, as there is where stored in buildings.

(4) **Our method of packing insures arrival in perfect condition.**

## Standard Roses

We offer a grand collection of Rose Trees on both Rugosa and Canina stock in the best varieties of Hybrid Teas and Hybrid Perpetuals. XX size, 3 to 5 plants, \$1.25 each; 6 or more plants, \$1 each. X size, 3 to 5 plants, \$1 each; 6 or more, 75 cts. each.

We also have a splendid stock of Standard Crimson Rambler, Baby Rambler and Dorothy Perkins on Rugosa stock at the following prices, namely; **Crimson Rambler**, 2-yr., 75 cts.; 3-yr., \$1.50; 4-yr., \$2.50. **Dorothy Perkins**, 2-yr., \$1; 3-yr., \$2. **Baby Rambler**, 2-yr., \$1; 3-yr., \$1.50.

## Rosa rugosa rubra

Having a fine stock of this most excellent Rose for shrub effect and for hedge, we offer plants at the following low rates, namely; 2-yr., 25 cts. each, \$2.50 per doz., \$15 per 100; 3-yr., 40 cts. each, \$4 per doz.

**AN INVITATION.** **IRIS, ROSE and PEONY EXHIBIT.** While visitors are always welcome to our Nurseries, yet a special invitation is extended to the public to visit us in June. If those interested will write us, we shall be pleased to name the best dates as soon as the season shows itself to be normal or otherwise.

**The Nursery is located** on the State road, half way between the West Chester County Almshouse at East View, on the Putnam Branch, and Hawthorne, on the Harlem Branch of the N. Y. C. R. R., 1 1/4 miles from each station. Carriages meet all trains at Hawthorne, fare 25 cts. About one hour from the Grand Central Station in New York.

# Hardy Perennials

FOR DESCRIPTIONS SEE PAGES 40 TO 58  
OF OUR LARGE, ILLUSTRATED CATALOGUE

We have greatly increased our facilities for supplying the old-fashioned flowers, including improved new hybrids and many varieties, especially adapted to the Alpine and rock-garden. We offer strong plants which will bloom this summer.

Six at dozen rates, 50 at 100 rates (which is \$10 per 100 for those priced at \$1.50 per doz.), provided not less than five of a kind are ordered. No charge for boxing and packing orders amounting to \$5 or more

## PRICES AND DISCOUNTS

The prices of trees and shrubs which follow, and extra sizes on page 8, include boxing and packing. The reason the price of the single plant seems higher in proportion is that the cost of packing a single plant is often as much as for several. On wholesale orders for 10 or more of a kind and size, therefore, we are prepared to make a liberal discount as follows: 10 to 50 plants of one kind and size 20 per cent, 50 to 250 plants of one kind and size 25 per cent, from the single rates where the price per 10 and per 100 is not given.

On orders for assorted lots of one to ten of each kind and size, we will give the following discounts from the rate of each, namely: Orders amounting to \$10 to \$20, 5 per cent discount; \$20 to \$50, 10 per cent; \$50 to \$100, 15 per cent; \$100 up, 20 per cent.

A Young Block of White Pine (*Pinus Strobus*)

also, to burlap the roots in a large ball of earth, except cheap and small sizes. Among many species we offer some of the cheaper sorts for screens and hedges; also choice specimens of the more rare and beautiful **Colorado Blue Spruce, Oriental Spruce, Nordmann's Fir, White Pine, Mugho Pine, Swiss Stone Pine, Japanese Umbrella Pine, Arborvitae, Hemlock, Retinosporas, Junipers, etc.** We invite correspondence with those desiring to plant Evergreen Trees, and offer information as to proper time and method of handling the different species. Special estimates for large numbers. See General Catalogue.

Use this  
Coupon

People who are careful about what they say declare it to be the "Best Magazine of its Kind in the World." Even we, who are in the business of growing flowers, look for its coming and value its help. It is so timely with its suggestions and its "monthly reminder." It will give you ideas and delight you with its beautiful instructive illustrations. It will keep you constantly posted horticulturally on the *new things* and the *good things worth knowing*. *If You Have a Garden, You Need the Garden Magazine.*

(OVER) ROSEDALE NURSERIES.

## We'll Stand Part of the Cost

We should like to place a year's subscription to the GARDEN MAGAZINE in the hands of every one of our patrons, because it will help them to a wiser selection, better care, and richer enjoyment of the flowers they buy from us.

The publishers' price is \$1.50 a year, and it is well worth the money. But our price for reasons above stated (to any one who will order \$1.00's worth from our Catalog) is going to be *only \$1.00 a year, thus we save you 50c.*

To acquaint you with our choice stock we will have the paper sent free for one year to new customers with cash order for \$7.50 or more. Thus you get the Magazine, well worth \$1.50 and plants well worth \$7.50, all for \$7.50 or the Magazine *free.*

***This is our way to encourage you to take and read the Garden Magazine and to know the value of Rosedale Products.***

## Extra Sizes of Trees and Shrubs

In addition to the ordinary sizes of trees and shrubs, we offer the following specimen sizes, a superb lot for immediate effect. These have been well grown, *frequently transplanted*, and are far superior to those grown to the same sizes without being recently transplanted. 15 per cent discount on orders for \$50 to \$100.

SEE DISCOUNTS ON PAGE 4

 Note liberal discounts on shrubs and trees, page 4. Every tree and shrub in our Nursery has been transplanted within 30 months, which adds greatly to their value. No charges for boxing and packing.

Estimates cheerfully furnished on Rose Gardens, Hardy Gardens, or general lay-out of estates, by our Landscape Department. Special prices on larger quantities and on small sizes for forestry. Our Catalogue, illustrated from photographs, accurately describes nearly 200 varieties of Roses and hundreds of the best Shrubs, Trees, Perennials, Gladioli, Dahlias and Fruits,
